### Respuesta modelo:

I live in a small city in the north of Spain. I like it a lot because it's quiet and the people are friendly. There are some nice parks and a few good restaurants near my house. It's not very big, so I can walk almost everywhere. The only problem is that it rains quite a lot. But in general, it's a nice place to live.

**Tarea:** Compare these two photos. One shows people exercising outside and the other shows a gym. Which do you prefer?

**Respuesta modelo:**

These two photos are both about doing exercise, but in different places. In the first photo, people are running outside in a park. In the second photo, a person is training in a modern gym. I think exercising outside is nice because it's free and you get fresh air. The gym is also good because you can use machines and go when it's cold or raining. ## Part 4 · Tema abstracto (1 min prep + ~2 min)

### Redes sociales

**Tarea:** Some people think social media is bad for young people. Others think it is useful. What is your opinion?

#### Respuesta modelo:

In my opinion, social media has good things and bad things. On the good side, it helps people stay in contact with friends and family, even if they live far away. It's also useful for studying and for finding information quickly. For example, I use it to follow the news and to learn English. But there are also some bad things. Some people spend too many hours on their phones, and this is not good for their health or their sleep. I also think it's easy to compare your life with other people and feel sad. So, in conclusion, I think social media is useful, but we need to use it carefully and not too much.

### Aprender inglés

**Tarea:** Why do you think it is important to learn English today?

#### Respuesta modelo:

I think learning English is very important today for many reasons. First, English is used all over the world, so you can talk to people from many different countries. Second, it's very useful for work. A lot of companies want people who can speak English, so it can help you find a better job. It's also important for travelling, because you can ask for help and understand signs in other countries. And of course, you need English to use the internet, watch films and listen to music. For me, learning English is also a personal goal. So, in conclusion, I think English opens a lot of doors and that's why everybody should try to learn it.
